

Scheduler

Location: Monterey, California

About Fluence

Fluence, a Siemens and AES company, is the leading global energy storage technology solutions and services company that combines the agility of a fast-growing technology company with the expertise, vision, and financial backing of two industry powerhouses. Building on the pioneering work of AES Energy Storage and Siemens energy storage, Fluence's goal is to create a more sustainable future by transforming the way we power our world. The company offers proven energy storage technology solutions designed to address the diverse needs and challenges of customers in a rapidly transforming energy landscape, providing design, delivery and integration in over 160 countries. Fluence works closely with customers throughout their journey and provides advisory, financing, and project lifecycle services.

About the Job:

The Scheduler will be responsible for all scheduling functions on energy storage construction projects in California. The Scheduler will be responsible for the development, preparation and maintenance of the Critical Path Method ("CPM") schedule in Primavera P6 throughout the life cycle of the projects.

Responsibilities/Essential Functions:

Organize, implement and maintain schedules to support identified projects and their plans.

- Assist to set up tasks and sub tasks to ensure satisfactory realization of project contract requirements as scheduled.
- Log project time-lines and maintain database of tasks and its status.
- Log all new information into database and provide scheduled reports for contract coordination and reporting purposes.
- Interact with customer and project staff to schedule work and coordinate assignments.

- Design and develop project schedule
- Interact with project team and task managers to define scope of work to develop and update detailed schedules, cost information and identification of variances from original plan.
- Evaluate project schedule progress and performance and identify developing problem areas.
- Analyze critical path and constraints to determine effect of changes to schedule and recommend work-around.
- Develop and update short interval schedules
- Suggest management of risks affecting project profit, costs, schedules and client relations.
- Support project management team to maintain timely and effective change management processes, procedures and systems.
- Assist project team to develop and maintain periodic status reports to keep management informed on project progress.
- Conduct analysis to determine alternative courses of action or recovery on slipped schedules.
- Interact with contractors, customers and project management team

Qualifications:

- Minimum two- years of experience developing CPM schedules, monitoring and reporting progress, updating CPM schedules and performing schedule analysis for construction of electric distribution and transmission facilities or similar complex projects.
- Minimum of one-year experience in Primavera Project Management P6
- Some on-site project construction experience
- Proficient in MS Office, Project and Excel and other basic computer skills
- Proficient verbal and written communication skills

Qualified candidates are requested to submit a resume and cover letter at careers@fluenceenergy.com
