

## Philippines Finance Lead

Location: Manila, Philippines

### About Fluence

Fluence, a Siemens and AES company, is the leading global energy storage technology solutions and services company that combines the agility of a fast-growing technology company with the expertise, vision, and financial backing of two industry powerhouses. Building on the pioneering work of AES Energy Storage and Siemens energy storage, Fluence's goal is to create a more sustainable future by transforming the way we power our world. The company offers proven energy storage technology solutions designed to address the diverse needs and challenges of customers in a rapidly transforming energy landscape, providing design, delivery and integration in over 160 countries. Fluence works closely with customers throughout their journey and provides advisory, financing, and project lifecycle services.

### Job Description

This position is responsible for finance and commercial project management within the Fluence subsidiary in the Philippines. The position reports to the APAC Finance Lead. The Finance Lead aspect of the role is to manage and coordinate accounting and tax compliance, financial and operational internal controls together with the respective global functions. The commercial project management part of the role is to track and manage projects together with the project manager and the project team using Corporate Systems including NetSuite Project Systems (ERP System) and Salesforce. The position requires interfacing with many internal stakeholders as well as with outside customers, suppliers and contractors. This role requires a background in accounting/finance working with infrastructure/construction projects. This role does require initiative, problem solving and decision-making capabilities.

### Major Duties and Responsibilities

- Oversee all finance related aspects of the Philippine Fluence entity and work closely with the respective global finance functions
- Support the process to build up a local Fluence organization
- Monitor and review financial reports to ensure accuracy
- Support Cash Flow Management
- Forecast project spending and provide monthly accruals on work performed
- Develop deep understanding of the Engineering, Procurement, and Construction contract with the clients
- Direct and assist w/common processes/procedures related to the administration of EPC projects

- Carry out risk assessments, ensuring that the most efficient resources are leveraged
- Manage construction subcontractors/vendors to maintain project delivery and quality
- Track and evaluate performance guarantees and timelines for project potential delay
- Work closely with project managers to provide timely transparency around project/contract budgets
- Organize project reviews from start to the end of each contract including coordinating close-out process
- Build and manage approved project/contract detail in NetSuite spending areas at the line item level
- Build work orders in NetSuite within project budget and initiate fund transfers
- Manage change management projects leveraging feedback from multiple stakeholders

### **Qualifications:**

- >5 years of specific finance background in solution/construction projects and an overall finance experience of at least 10 years in a related area/industry
- Detail oriented with strong time management and project management skills
- High level of knowledge in use of Enterprise Resource Planning Systems such as NetSuite Project Systems or similar
- Demonstrated ability to interact with executive management
- Strong background in using MS Office software: Excel, Word, and PowerPoint
- Up to 15% travel as needed domestically and potentially globally

### **Required Education and Training:**

- College degree with a major in accounting, business administration, engineering or equivalent training; Project Management Professional (PMP) Certification desired

Qualified candidates are requested to submit a resume and cover letter at [careers@fluenceenergy.com](mailto:careers@fluenceenergy.com) for consideration.
