

# Civil Engineer

Location: Alpharetta, GA (Flexible)

## ABOUT FLUENCE

Fluence, a Siemens and AES company, is the leading global energy storage technology solutions and services company that combines the agility of a fast-growing technology company with the expertise, vision, and financial backing of two industry powerhouses. Building on the pioneering work of AES Energy Storage and Siemens energy storage, Fluence's goal is to create a more sustainable future by transforming the way we power our world. The company offers proven energy storage technology solutions designed to address the diverse needs and challenges of customers in a rapidly transforming energy landscape, providing design, delivery, and integration in over 160 countries. Fluence works closely with customers as trusted advisors throughout their journey and provides advisory, financing, and project lifecycle services.

## Leading

Do others come to you for your subject matter expertise? Are you excited by the challenge of working in a start-up atmosphere with a purpose?

Do you enjoy creating civil and structural engineering designs and layouts or do you have a passion for engineering calculations and review? Are you eager to show your thorough knowledge of civil and structural design? Fluence has an open role for a Civil/Structural Engineer.

## Responsible

Fluence is defined by its unwavering commitment to safety, quality, and integrity. We take personal ownership in what we do, developing trust in our relationships with internal and external stakeholders. We firmly believe in having honest, forthcoming, and fair communications.

- You will perform structural design and analysis calculations using governing codes and standards, engineering formulas, skills, and experience.
- You will create layouts and details of projects using schematic layouts or conceptual layouts.
- You will review structural/civil drawings and calculation packages.
- You will perform field activities such as observation and recording existing field conditions, take and verify measurements within project areas.

## Agile

Here at Fluence, we strive to continuously improve, to be intellectually curious and be adaptive to our customers and employee's needs. Collaboration is key, both in our partnerships with our customers, and with each other. Fluence prioritizes the most critical efforts that allow for the greatest impact.

- You will need a minimum of 10 years of experience with advanced technical knowledge in civil and/or structural engineering through a combination of experience and continuing education.
- You have a professional Engineer (PE) license is required. California PE Licensee required, or able to obtain within 2 months of employment.
- You have working experience and knowledge of structural design in different seismic zones per IEEE693 and ASCE7.

## Fun

We are always looking for employees who are excited by challenges and the opportunity to be problem-solvers. Our entrepreneurial mindset allows for creativity, sense of urgency and fulfillment. Our employees love what we do and are passionate about the way we power our world.
