

Senior Linux Systems Engineer

Location: Arlington, VA or Flexible

ABOUT FLUENCE

Fluence, a Siemens and AES company, is the leading global energy storage technology solutions and services company that combines the agility of a fast-growing technology company with the expertise, vision, and financial backing of two industry powerhouses. Building on the pioneering work of AES Energy Storage and Siemens energy storage, Fluence's goal is to create a more sustainable future by transforming the way we power our world. The company offers proven energy storage technology solutions designed to address the diverse needs and challenges of customers in a rapidly transforming energy landscape, providing design, delivery and integration in over 160 countries. Fluence works closely with customers throughout their journey and provides advisory, financing, and project lifecycle services.

Leading

If you are looking for an exciting environment where you can work with cutting edge technology to build resilient, clean, and cost-effective battery storage systems, this Sr. Linux Systems Engineer role may be the perfect opportunity.

Responsible

Fluence is defined by its' unwavering commitment to safety, quality, and integrity. We take personal ownership in what we do, developing trust in our relationships with internal and external stakeholders. We firmly believe in having honest, forthcoming, and fair communications.

- You will perform software deployment and configuration lifecycle activities.
- You will interact with internal engineers and external hardware and software Vendors to build and maintain production systems.
- You will participate in continuous improvement of production systems, processes and procedures.

Agile

Here at Fluence, we strive to continuously improve, to be intellectually curious and be adaptive to our customers and employee's needs. Collaboration is key, both in our partnerships with our customers, and with each other. Fluence prioritizes the most critical efforts that allow for the greatest impact.

- 10+ years of Linux operating system experience for system administration, preferably using Ubuntu, Red Hat/Fedora or Debian.
- Excellent oral and written communications skills.
- Ability to work effectively in the fast-paced, dynamic Fluence Energy environment.
- Enjoy creative problem solving.

Fun

We are always looking for employees who are excited by challenges and the opportunity to be problem-solvers. Our entrepreneurial mindset allows for creativity, sense of urgency and fulfillment. Our employees love what we do and are passionate about reducing the world's carbon footprint.

Our team is lean and multi-talented. We are looking for diverse talent to sustain Fluence's high rate of growth. We have a strong desire to attract and retain top talent and we believe the best candidate will strengthen our culture and attract future top talent. As an international company, Fluence imparts a global view of the energy storage industry. You will work with a great team to change how we power our world for a sustainable future.
