Location: Erlangen, Germany

ABOUT FLUENCE

Fluence, a Siemens and AES company, is the leading global energy storage technology solutions and services company that combines the agility of a fast-growing technology company with the expertise, vision, and financial backing of two industry powerhouses. Building on the pioneering work of AES Energy Storage and Siemens energy storage, Fluence's goal is to create a more sustainable future by transforming the way we power our world. The company offers proven energy storage technology solutions designed to address the diverse needs and challenges of customers in a rapidly transforming energy landscape, providing design, delivery and integration in over 160 countries. Fluence works closely with customers throughout their journey and provides advisory, financing, and project lifecycle services.

JOB DESCRIPTION

Do you want to work on transforming the global electricity industry? Does commercializing clean energy technologies get you excited? Do you believe that energy storage is the key to a clean energy future? Do you want to work at a fast-paced entrepreneurial startup with the backing of two industry powerhouses, AES and Siemens?

You will be part of the Sales Engineering Team based in Erlangen. Minimum duration of this employment is 6 months and can be extended.

YOUR FIELD OF RESPONSIBILITY - CHALLENGING AND FUTURE-ORIENTED

- Support in sizing and configuring of an Energy Storage System that is meeting customer requirements.
- Support Technical Offerings with the Sales Team.
- Support in developing Technical Specifications.
- Improving and developing centralized sources of Technical Information.

SKILLS & QUALIFICATIONS - SOLID AND ADEQUATE

- Registered in a reputed European University to undertake Master of Science (MSc) or equivalent degree program in Electrical Engineering, Mechanical Engineering or similar relevant Energy Management field.
- Good theoretical understanding of Energy Management principles.
- Can do attitude, eager to learn new things and ready to think outside the box.

- Passed examination for one of related lectures, e.g. Electrical Engineering, Mechanical Engineering, Energy Management, etc., are a must (good grades preferred).
- Good spoken and written English skills to serve our Global customer portfolio and documentation.
- Advanced AutoCAD skills.
- Good theoretical understanding of Battery Energy Storage Systems and Distributed Energy Systems are a plus.
- Excellent MS Office, including Visio capabilities are a plus.

YOUR OPPORTUNITIES - WHAT WE CAN OFFER YOU

- Exciting and varied tasks in different areas where you can shape and change a lot by your influence.
- Flat hierarchies, short decisions and an international environment.
- An international, world-class team with a pleasant working atmosphere. In this environment you can develop yourself every day.
- An appreciative corporate culture in which recognition and a sense of togetherness are very important.
