

Working Student: Product Management (m/f/d)

Location: Erlangen, Germany

ABOUT FLUENCE

Fluence, a Siemens and AES company, is the leading global energy storage technology solutions and services company that combines the agility of a fast-growing technology company with the expertise, vision, and financial backing of two industry powerhouses. Building on the pioneering work of AES Energy Storage and Siemens energy storage, Fluence's goal is to create a more sustainable future by transforming the way we power our world. The company offers proven energy storage technology solutions designed to address the diverse needs and challenges of customers in a rapidly transforming energy landscape, providing design, delivery, and integration in over 160 countries. Fluence works closely with customers throughout their journey and provides advisory, financing, and project lifecycle services.

Job Description

Our new working student supports the Product Management team on product strategy and product planning topics, with particular focus and oversight of product position and cost. As a member of the Product Management team, you directly support the definition of product specifications, feature/functionality opportunities, and competitive position.

Your Responsibilities:

As a working student, you...

- find our values **responsibility, agility, leadership, and fun** inspiring and you want to work in a company that is a little bit "different"
- support product planning and strategy discussions
- collaborate with internal/external stakeholders to assess customer needs and identify product/feature opportunities
- perform competitive benchmarking
- work with worldwide teams to analyze and homologate country-specific regulations and local requirements
- develop product-level cost models and drive toward competitive cost positions while balancing functionality and compliance needs
- support development of requirements specifications within an agile technology development process environment

Your Qualifications:

- The ideal candidate will have exposure to product management thinking and topics. Experience working in a dynamic company environment is a plus
- You possess strong competencies in analytical thinking encompassing both technical and commercial strategy
- Progress towards a B.Sc. in Industrial Engineering, Business Administration, or similar program
- Experience in and knowledge of agile development methods
- Ability to utilize data and statistical analyses to drive decisions
- Strong interpersonal communication skills to coordinate with diverse internal and external teams worldwide
- You demonstrate sound business judgement
- You have self-initiative and work with minimal supervision while being a collaborative team player
- You work dynamically, across multiple teams and projects concurrently
- You possess an entrepreneurial drive for getting things done and a “whatever it takes” attitude
- Excellent English verbal and writing skills, additional languages or international work experience are a plus
- Most important: You have a positive attitude, are a quick and highly motivated learner, and have the desire to make the world a better place through technology

What we can offer you:

- Exciting and various tasks in different areas, where you can contribute with individual initiative and make a change
- Flat hierarchies, short channels of decision making and an international environment
- An excellent team with a great atmosphere, where you will learn and grow every day
- A valuing company culture, where appreciation and the feeling of being a team has priority
