

## Senior Commercial Project Manager (m/f/d)

Location: Germany / UK

### About Fluence

Fluence, a Siemens and AES company, is the global market leader in energy storage technology solutions and services, combining the agility of a technology company with the expertise, vision and financial backing of two well-established and respected industry giants. Building on the pioneering work of AES Energy Storage and Siemens energy storage, our goal is to create a more sustainable future by transforming the way we power our world. Providing design, delivery and integration, Fluence offers proven energy storage technology solutions that address the diverse needs and challenges of customers in a rapidly transforming energy landscape.

Fluence currently has more than 2.4 gigawatts of projects in operation or awarded across 24 countries and territories worldwide. In 2021 we topped the Guidehouse utility-scale energy storage leaderboard and were also named one of Fast Company's Most Innovative Companies. In 2020, our sixth-generation Tech Stack won Commercial Technology of the Year at the 22nd annual S&P Global Platts Global Energy Awards.

The Commercial Project Manager is responsible for managing and tracking all commercial aspects of projects and service contracts under execution, using corporate systems including NetSuite Project Systems. This includes driving accounting compliance, ensuring adherence to commercial contract terms, executing financial and operational internal controls, driving and managing customer contract changes and supplier claims and maintaining operational excellence.

The position requires interfacing with many internal stakeholders as well as with outside construction contractors and service providers. This role requires a background in accounting/finance working with infrastructure/construction projects and long-term service contracts as well as Contract Management skills.

## Major Duties and Responsibilities

- Direct and assist w/common processes/procedures related to the administration of project and long-term service contracts
- Track and evaluate performance guarantees and general system performance under long-term service contracts
- Work closely with project managers and service managers to provide timely transparency around project/contract budgets
- Manage construction subcontractors/vendors and maintenance providers to maintain project delivery timeline and quality met
- Use Contract Management capabilities to review and manage all contract documents; Claim and Change Order Negotiations; Risk and Opportunity Analysis
- Analyze and process project related documents (purchase requisitions, field orders, invoices, etc.)
- Organize the project reviews from start to the end of each contract including coordinating close-out process
- Drive to improve project performance through change orders and supplier claims  
Communicate financial matters with project teams to business units and executives
- Manage approved project budget and create cost breakdown structure in NetSuite at the line item level
- Forecast project spending and provide monthly accruals on work performed
- Monitor and audit reports to ensure accuracy and perform reconciliation of project financials
- Understand sales, property and personal tax requirements

## Skills & Qualifications - solid and adequate

College degree with a major in accounting, business administration, engineering or equivalent training required. A Project Management Professional (PMP) Certification is an advantage.

## Required

- At least 5 years' experience managing construction related projects and long-term service contracts. Experience in Energy industry is an advantage.
- Good working knowledge of project related activities
- Detail oriented with strong time management and project management skills
- Contract Management skills
- High level of knowledge in use of Corporate Systems such as NetSuite Project Systems
- Demonstrated ability to interact with executive management
- Strong background in using MS Office software: Excel, Word, and PowerPoint
- Up to 25% travel as needed domestically and potentially globally
