Location: Remote / Different locations or Erlangen, Germany

### ABOUT FLUENCE

Fluence, a Siemens and AES company, is the leading global energy storage technology solutions and services company that combines the agility of a fast-growing technology company with the expertise, vision, and financial backing of two industry powerhouses. Building on the pioneering work of AES Energy Storage and Siemens energy storage, Fluence's goal is to create a more sustainable future by transforming the way we power our world. The company offers proven energy storage technology solutions designed to address the diverse needs and challenges of customers in a rapidly transforming energy landscape, providing design, delivery, and integration in over 160 countries. Fluence works closely with customers throughout their journey and provides advisory, financing, and project lifecycle services.

### Job Description

Our new working student supports the EMEA Quality and Safety Team on various development and improvement initiatives, with particular focus and oversight of business process management, internal and external audits, change management. As a member of Safety and Quality team, you directly support the development of new processes and documentation across functional teams, help to establish Safety and Quality oriented mindset, support development and maintenance of digital platforms using SharePoint, participate in EMEA regional improvement projects.

### Your Responsibilities:

If You are interested in Business process management, Quality management, Performance evaluation techniques, Green energy future and agile and fun team work. Then, as a working student, you will support the regional Quality & Safety Manager:

- Work with EMEA teams to create and update business process landscape and documentation, help to define and evaluate KPIs, support of Process interface management
- Analyze processes in order to identify process gaps and improvement potentials

- Track and measure KPIs to demonstrate business process performance and identify and build action plans for improvement.
- Support internal and external audits (ISO 9001, 14001, 45001, 27001)
- Assist in developing Quality management business tools
- Support the development of a new and user friendly SharePoint platforms (sites, lists, libraries).
- Create presentations, reports, analytical summaries for different purposes like Lessons Learned Workshops, Risk management interviews, internal auditors trainings
- Support development of project-related Quality and HSE documentations
- Support the organization of the EMEA Safety and Quality Meetings
- Support Communication of Safety and Quality Updates to all levels and roles in the EMEA region

### **Your Qualifications:**

- You are a Bachelor or Master student, preferably with a business background
- Strong interpersonal communication skills to coordinate with diverse internal and external teams worldwide
- You have self-initiative and work with minimal supervision while being a collaborative team player
- You are curious about data analysis, business analytics architecture and you are eager to explore new things
- You have mastered an effective time management to organize and prioritize a heavy workload in a fast-paced demanding environment
- Great level of knowledge: Excel (charts, diagrams, statistical analysis), PowerPoint, Visio (swimlanes, process mapping, workflows), SharePoint (libraries, lists, sites build-up)
- Excellent English verbal and writing skills, additional languages or international work experience are a plus
- Most important: You have a positive attitude, are a quick and highly motivated learner, and have the desire to make the world a better place through continuous improvement

### **What we can offer you:**

- Exciting and various tasks in different areas, where you can contribute with individual initiative and make a change
- Flat hierarchies, short channels of decision making and an international environment

- An excellent team with a great atmosphere, where you will learn and grow every day
- A valuing company culture, where appreciation and the feeling of being a team has priority
