

Senior Product Quality Manager

Location: Arlington VA, or Continental US

ABOUT FLUENCE

Fluence, a Siemens and AES company, is the global market leader in energy storage technology solutions and services, combining the agility of a technology company with the expertise, vision and financial backing of two well-established and respected industry giants. Building on the pioneering work of AES Energy Storage and Siemens energy storage, our goal is to create a more sustainable future by transforming the way we power our world. Providing design, delivery and integration, Fluence offers proven energy storage technology solutions that address the diverse needs and challenges of customers in a rapidly transforming energy landscape.

Fluence currently has more than 2.4 gigawatts of projects in operation or awarded across 24 countries and territories worldwide. We topped the Navigant Research utility-scale energy storage leaderboard in 2018 and were named one of Fast Company's Most Innovative Companies in 2019. In 2020, our sixth-generation Tech Stack won Commercial Technology of the Year at the 22nd annual S&P Global Platts Global Energy Awards.

Leading

Do others come to you for your subject matter expertise? Are you excited by the challenge of working in a start-up atmosphere with a purpose?

As a leader you will:

- Develop the product quality program at Fluence
- Lead the creation of infrastructure that supports product quality design and control methodology and integrates product development practices into the enterprise quality infrastructure
- Manages the Product Quality requirement for standardization and improvement

Responsible

Fluence is defined by its unwavering commitment to safety, quality, and integrity. We take personal ownership in what we do, developing trust in our relationships with internal and external stakeholders. We firmly believe in having honest, forthcoming, and fair communications. In this role you will:

- Create the product quality program at Fluence
- Apply in-depth knowledge of product quality specification development to drive the principles and practices of quality product design
- Lead the creation of training infrastructure to share technical expertise across the organization to build organizational capability
- Oversee final product quality inspection in compliance with corporate/customers' standards and requirements.
- Prevent potential production issues and makes suggestions for improvement.
- Ensure and supports the accuracy of quality documentation such as requirements, policies, and procedures.
- Continuously drives competence development and increases awareness around the importance of correcting identified issues, performing root cause analysis or investigations, and creating reports with the purpose of reducing and preventing product quality issues.
- Work with various functional teams throughout the company

Agile

Here at Fluence, we strive to continuously improve, be intellectually curious and be adaptive to our customers and employee's needs. Collaboration is key, both in our partnerships with our customers, and with each other. Fluence prioritizes the most critical efforts that allow for the greatest impact. What should an interested candidate bring to Fluence?

- Bachelor's degree required. Advanced degree or certification in a relevant subject area preferred
- 10+ years relevant experience
- Strong verbal and written communication skills required
- Detailed oriented
- Problem solving skills
- Energy Storage knowledge preferred but not required

Fun

Working on transforming a fundamental part of our society is exciting and fulfilling. It requires creativity, diversity of ideas and backgrounds, and building trust to effect change and move with speed. We respect our coworkers and customers. We listen to what others have to say, and we are inclusive.

This position will report directly to the Global Safety and Quality Director. This position, although out of the USA, will be working with team members around the globe. This position is a remote position, but we may ask you to travel to the Arlington VA office 25% of the time. There may be some international travel needed. No more than 10% international travel.
