

Supplier Quality Manager

Location: Arlington VA or Continental US

ABOUT FLUENCE

Fluence, a Siemens and AES company, is the global market leader in energy storage technology solutions and services, combining the agility of a technology company with the expertise, vision and financial backing of two well-established and respected industry giants. Building on the pioneering work of AES Energy Storage and Siemens energy storage, our goal is to create a more sustainable future by transforming the way we power our world. Providing design, delivery and integration, Fluence offers proven energy storage technology solutions that address the diverse needs and challenges of customers in a rapidly transforming energy landscape.

Fluence currently has more than 2.4 gigawatts of projects in operation or awarded across 24 countries and territories worldwide. We topped the Navigant Research utility-scale energy storage leaderboard in 2018 and were named one of Fast Company's Most Innovative Companies in 2019. In 2020, our sixth-generation Tech Stack won Commercial Technology of the Year at the 22nd annual S&P Global Platts Global Energy Awards.

Leading

Do others come to you for your subject matter expertise? Are you excited by the challenge of working in a start-up atmosphere with a purpose?

As the Supplier Quality Manager, you will be the main point of contact between global team members and suppliers. You will also assist in creating Supplier Quality programs and policies and lead the closing of SCARs.

Responsible

Fluence is defined by its unwavering commitment to safety, quality, and integrity. We take personal ownership in what we do, developing trust in our relationships with internal and external stakeholders. We firmly believe in having honest, forthcoming, and fair communications. In this role you will:

- Execute global supplier quality management process
- Participate in onsite supplier audits, to include assisting in closing out CAPAs

- Support the Global Supplier Quality Manager in working with suppliers to close out SCARs and NCRs
- Assist in building supplier quality programs and policies.
- Work with supplier for continues improvement
- Participate in Root cause investigations
- Present various KPIs and quality initiative status to Executive leadership team using various platforms

Agile

Here at Fluence, we strive to continuously improve, be intellectually curious and be adaptive to our customers and employee's needs. Collaboration is key, both in our partnerships with our customers, and with each other. Fluence prioritizes the most critical efforts that allow for the greatest impact. What does a qualified candidate bring to Fluence?

- Bachelor's degree in electrical engineering or business required. Advanced degree or certification in a relevant subject area preferred
- 5+ years relevant supplier Quality experience or of technical engineering experience
 - Technical Engineering experience preferred
- Knowledge of ISO 9001 standards or Six Sigma
- Global mindset with experience working in an international/multi-cultural matrix environment
- Strong verbal and written communication skills required
- Detailed oriented
- Problem solving skills
- Energy Storage knowledge preferred but not required

Fun

Working on transforming a fundamental part of our society is exciting and fulfilling. It requires creativity, diversity of ideas and backgrounds, and building trust to effect change and move with speed. We respect our coworkers and customers. We listen to what others have to say, and we are inclusive.

This position will report directly to the Global Supplier Quality Manager. This position, although located in the US, will be working with team members around the globe. You may travel to the Arlington VA office 25% of the time as well as 25% international travel.
