

Master Scheduler

Location: Arlington, VA or Continental US

ABOUT FLUENCE

Fluence, a Siemens and AES company, is the global market leader in energy storage technology solutions and services, combining the agility of a technology company with the expertise, vision and financial backing of two well-established and respected industry giants. Building on the pioneering work of AES Energy Storage and Siemens energy storage, our goal is to create a more sustainable future by transforming the way we power our world. Providing design, delivery and integration, Fluence offers proven energy storage technology solutions that address the diverse needs and challenges of customers in a rapidly transforming energy landscape.

Fluence currently has more than 2.4 gigawatts of projects in operation or awarded across 24 countries and territories worldwide. We topped the Navigant Research utility-scale energy storage leaderboard in 2018 and were named one of Fast Company's Most Innovative Companies in 2019. In 2020, our sixth-generation Tech Stack won Commercial Technology of the Year at the 22nd annual S&P Global Platts Global Energy Awards.

Leading

Do others come to you for your subject matter expertise? Are you excited by the challenge of working in a start-up atmosphere with a purpose?

The Master Scheduler manages the master production schedule to ensure demand and supply are always balanced. The role leads the planning of production, capacity, inventory, project status and other production drivers, and develops strategies for adapting variances to the plan. The Master Scheduler coordinates communication and data flow between manufacturing, supply chain management, and project management, including ensuring ERP systems are properly aligned with desired business processes.

Responsible

Fluence is defined by its unwavering commitment to safety, quality, and integrity. We take personal ownership in what we do, developing trust in our relationships with internal and external stakeholders. We firmly believe in having honest, forthcoming, and fair communications. In this role you will:

- Master production schedule: Plan, prepare, maintain and report on performance of the Master Schedule.
- Capacity requirements plan: Create and maintain a capacity requirements plan that supports the master schedule.
- Product development coordination: Coordinate engineering changes, product phase in and phase outs and availability to support the master schedule.
- Inventory: Establish and adjust safety stock levels for finished goods and raw material inventories. Prepare run out analyses for discontinued items and coordinate an exit strategy with planners and purchasing.
- Scheduling processes: Establish, evaluate and maintain production scheduling processes and a formal master schedule review and sign-off process.
- Contract manufacturer coordination: Coordinate and integrate key subcontractor schedules with the MPS.
- Risk scenario planning: Run scenarios to identify and plan for risks.
- Issue Resolution: Lead resolution of high-level resolution of supply, demand and capacity issues.
- Reporting: Development, maintenance, and communication of key performance indicators that are consistent with executive strategies and plant-level performance measures. Analyze data to identify causes of variances.
- Training: Train all new supply chain professionals in the business processes and the ERP system.

Agile

Here at Fluence, we strive to continuously improve, be intellectually curious and be adaptive to our customers and employee's needs. Collaboration is key, both in our partnerships with our customers, and with each other. Fluence prioritizes the most critical efforts that allow for the greatest impact. What should an interested candidate bring to Fluence?

- Bachelor's degree required. Degrees in engineering or business preferred. MBA preferred.
- APICS, CPIM or CSCP certification preferred.
- Seven or more years of supply chain experience.
- Three or more years of planning or scheduling experience.
- Experience developing a master production schedule within the Capital Equipment industry.
- Experience with Contract Manufacturers preferred.
- Experience with sales and operations planning processes.

- Capacity requirements planning experience.
- Extensive ERP system experience, particularly with NetSuite ERP
- Expert-level skills with MS Word and Excel.

Fun

Working on transforming a fundamental part of our society is exciting and fulfilling. It requires creativity, diversity of ideas and backgrounds, and building trust to effect change and move with speed. We respect our coworkers and customers. We listen to what others have to say, and we are inclusive.
