Quality Assurance Engineer

Location: Arlington, VA, or Continental US

ABOUT FLUENCE

Fluence, a Siemens and AES company, is the global market leader in energy storage technology solutions and services, combining the agility of a technology company with the expertise, vision and financial backing of two well-established and respected industry giants. Building on the pioneering work of AES Energy Storage and Siemens energy storage, our goal is to create a more sustainable future by transforming the way we power our world. Providing design, delivery and integration, Fluence offers proven energy storage technology solutions that address the diverse needs and challenges of customers in a rapidly transforming energy landscape.

Fluence currently has more than 2.4 gigawatts of projects in operation or awarded across 24 countries and territories worldwide. We topped the Navigant Research utility-scale energy storage leaderboard in 2018 and were named one of Fast Company's Most Innovative Companies in 2019. In 2020, our sixth-generation Tech Stack won Commercial Technology of the Year at the 22nd annual S&P Global Platts Global Energy Awards.

Leading

Do others come to you for your subject matter expertise? Are you excited by the challenge of working in a start-up atmosphere with a purpose?

As a Quality Assurance Engineer you will drive corrective action processes with key suppliers and/or Contract Manufacturers, as well as work together with relevant teams and departments to improve products.

Responsible

Fluence is defined by its unwavering commitment to safety, quality, and integrity. We take personal ownership in what we do, developing trust in our relationships with internal and external stakeholders. We firmly believe in having honest, forthcoming, and fair communications. In this role you will:

- Document results and findings after inspections are carried out
- Responsible for identifying technical issues and getting to the root of the problem
- Coordinate corrective actions and 8D with supplier and drive to closure

- Report and support achievement of Key Performance Indicators (KPI's)
- Improve product quality by making recommendations for change
- Ensure products adhere to company and industry quality standards

Agile

Here at Fluence, we strive to continuously improve, be intellectually curious and be adaptive to our customers and employee's needs. Collaboration is key, both in our partnerships with our customers, and with each other. Fluence prioritizes the most critical efforts that allow for the greatest impact. What should an interested candidate bring to Fluence?

- Bachelor's degree in related engineering field
- 3 to 5 years quality and manufacturing experience
- Experience with RoHS and REACH
- Knowledge of ISO standards, management of certification
- Supplier Quality Engineering background
- Continuous improvement, lean, 5S experience
- Ability to analyze data to draw conclusion, make recommendations and drive change
- Strong computer skills including Microsoft Office, ERP, Quality Management and databases
- Experience in Six Sigma philosophy

Fun

Working on transforming a fundamental part of our society is exciting and fulfilling. It requires creativity, diversity of ideas and backgrounds, and building trust to effect change and move with speed. We respect our coworkers and customers. We listen to what others have to say, and we are inclusive.
