

# Americas Regional Safety Manager

Location: Arlington, VA, or Continental US

## ABOUT FLUENCE

Fluence, a Siemens and AES company, is the global market leader in energy storage technology solutions and services. Fluence is creating a more sustainable future by combining the agility of a technology company with the expertise and vision of two respected industry giants.

## OUR CULTURE AND VALUES

We are a start up with a purpose to transform the way we power our world. It requires creativity, diversity of ideas and backgrounds, and building trust to effect change and move with speed.

### We are Leading

Fluence currently has 2.4 gigawatts of projects in operation or awarded across 24 countries and territories worldwide—and we are growing every day.

### We are Responsible

Fluence is defined by its unwavering commitment to safety, quality, and integrity.

### We are Agile

We achieve our goals and meet our customer's needs by cultivating curiosity, adaptability, and self-reflection in our teams.

### We are Fun

We value the diversity in thought and experience of our coworkers and customers. Through honest, forthcoming, and respectful communications we work to ensure that Fluence is an inclusive and welcoming environment for all.

## ABOUT THE POSITION

This position will report directly to the Regional VP of Project Execution. This position will work with team members around the Americas Region. This is a remote role, but we may ask you to travel to the Arlington VA office or project sites at least 25% of the time. There may be some international travel needed. No more than 20% international travel.

As the Americas Regional Safety Manager you will:

- Initiate and lead programs to create a sustainable world class safety culture. Communicate and engage people at all levels and roles in safety and quality.
- Develop and conduct trainings on a variety of topics related to safety programs, initiatives, and awareness for regional teams.
- Be responsible for building up and maintaining occupational safety and project safety guidance for the Americas region.
- Lead the creation of infrastructure that supports project occupational safety and health that meets regulatory requirements. To include Site safety plans, Site safety orientations, site emergency actions plans. Analyze trends, identify and build action plans to improve safety initiatives, and present recommendations to the Global Safety Director, and other Fluence Regional leaders. In addition, lead regional root cause analysis investigations for the America regions.

What will our ideal candidate bring to Fluence?

- Bachelor's degree required occupational Safety related certifications a plus
- 10+ years relevant experience
- Strong verbal and written communication skills required
- Detailed oriented
- Problem solving skills
- Energy Storage knowledge preferred but not required
