

Supply Chain Business Intelligence Analyst

Location: Arlington, VA or Remote

ABOUT FLUENCE

Fluence, a Siemens and AES company, is the global market leader in energy storage technology solutions and services. Fluence is creating a more sustainable future by combining the agility of a technology company with the expertise and vision of two respected industry giants.

OUR CULTURE AND VALUES

We are a start up with a purpose to transform the way we power our world. It requires creativity, diversity of ideas and backgrounds, and building trust to effect change and move with speed.

We are Leading

Fluence currently has 2.4 gigawatts of projects in operation or awarded across 24 countries and territories worldwide—and we are growing every day.

We are Responsible

Fluence is defined by its unwavering commitment to safety, quality, and integrity.

We are Agile

We achieve our goals and meet our customer's needs by cultivating curiosity, adaptability, and self-reflection in our teams.

We are Fun

We value the diversity in thought and experience of our coworkers and customers. Through honest, forthcoming, and respectful communications we work to ensure that Fluence is an inclusive and welcoming environment for all.

ABOUT THE POSITION

The Business Intelligence (BI) Analyst provides strategic, analytical, and technical support for business intelligence activities. The analyst leverages data to gain key insight into business opportunities, and effectively presents these insights to business stakeholders. The analyst is also heavily involved with the distribution and successful delivery of all BI reports.

- Partners with stakeholders, process specialists, and users to elicit and document business requirements
- Partners with business teams to define and document business requirements for new metrics and reports
- Designs, develops, and maintains reports and analytical tools
- Performs ongoing monitoring and refinement of reports
- Provides technical support for existing reports, dashboards, or other tools
- Identifies and analyzes errors and inconsistencies in the data and provides timely resolutions
- Translates data results into written reports, tables, graphs, and charts to convey information to management
- Creates written communication materials that effectively summarize findings and support recommendations
- Creates ad hoc reports and views on a frequent basis to assist management in understanding, researching, and analyzing issues
- Teaches and advocates the use of business intelligence tools across levels of the organization

What will our ideal candidate bring to Fluence?

- Bachelor's degree with 5+ years of experience in global supply chain, manufacturing, or a similar role
- Advanced analytical skills and attention to detail
- Proven ability to quickly learn new applications, processes, and procedures
- Able and willing to collaborate in a team environment and exercise independent judgment
- Excellent verbal and written communication skills
- Professional image with the ability to form good partner relationships across functions
- Strategic, intellectually curious thinker with focus on outcomes
- Advanced knowledge of MS PowerBi, SQL, and MS SQL Server
